TEXTILE INDUSTRY OUTPUT -- Rude Pravo, No 293, 16 Dec 48

The second volunteer shift, the results of which are not yet known, was worked in the textile industry on Sunday, 12 December.

The following plants fulfilled their two-year plan in the first 15 days of December: Beroun Weaving Mill, Cotona state enterprise, Prague; Factory No 19, in Teplice of the TERA state enterprise; Factory No 17 in Bilovec of the Moravian Knitting Mills, state enterprise; Factory No 35 at Usti near Stara Paka, No 32 in Prague-Liben, No 6 in Zabroh, and No 9 in Novy Bydov of the HEMAP state enterprise; the cotton-weaving mill at Celadna of the Silesian Cotton Mills state enterprise; Vichova weaving mill of the Pojizerske ~~Along the Isar~~ Cotton Mills, state enterprise; and the Kunzak factory of the Knitting Mills state enterprise, Jihlava. The UTEK state enterprise, Usti nad Orlici, will fulfill its plan 90.7 percent in 22 weaving mills.

Only two weaving mills of this state enterprise have fulfilled their two-year plan to date: the Svitava and the Bezpravi mills. Moreover, three weaving mills are working on the fulfillment of their plan. The vlcma spinning mills fulfilled their plan 120 percent; the wool spinning mill, 140 percent; and the wool weaving mill, 130 percent. In all, the UTEX state enterprise will fulfill its two-year plan 99 percent.

TEXTILE PLANTS COMPLETE TWO-YEAR PLAN -- Rude Pravo, No 272, 21 Nov 48

The following textile plants have completed their two-year plan: the Slany plant of the Associated Cotton Mills; the Cernoziwe plant, and the E. Schreiber plant in Jaromer, of the Cotton Spinning and Weaving Mills; the Zelezny Brod plant of the Pofizerske Plants; the Hronov plant of the Eastern Czech Cotton Mills; the Menterky plant of the TOSD state enterprise, Vratislavice; and the TON-ERUNN of the TOSTA state enterprise, in As.

PRODUCTION OF FOOTWEAR -- Rude Pravo, No 272, 21 Nov 48

The Trebic factory of the Bat'a state enterprise, has announced that during the Week of Exemplary Labor it produced 17,246 pairs of shoes and 1,306 pairs of stockings in excess of its weekly plan.

BAT'A PRODUCTION -- Rude Pravo, No 288, 10 Dec 48

The Bat'a state enterprise in Trebic has produced an additional 669,995 pairs of shoes and 2,014,700 pairs of stockings since the completion of its two-year plan before 28 October.

NAME OF BAT'A ENTERPRISE TO BE CHANGED -- Rude Pravo, No 287, 9 Dec 48

Effective 1 January 1949, the name of the Bat'a state enterprise in Gottwaldov will be changed to "Svit," including all branch factories.

OBSTACLES IN PRODUCTION OF OPTICAL GLASS -- Rude Pravo, No 276, 26 Nov 48

At present, there is a shortage of certain optical glasses in our country, primarily from two to six diopters in power. Although the situation has partially improved in that the Czechoslovak Glass Factories state enterprise, have delivered the stipulated quantities of these glasses to the OKULA state enterprise for processing, the domestic supply is still insufficient. If we consider the fact that this obstacle is lowering the working capability of those persons who urgently need these glasses, it means a considerable loss for our production in all industrial branches.

The OKULA state enterprise, which processes the glass products (the so-called blanks) which are delivered, does not obtain glasses in the dioptic assortment in greatest demand among the consumer public from the Czechoslovak Glass Factories state enterprise. The Czechoslovak Glass Factories do satisfy the OKULA state enterprise in deliveries as to quantity, but not in quality because the blanks cannot be worked to the required dioptic power. Although many steps have already been taken by the state enterprise, and a partial improvement in quality has been achieved, the production of blanks is not sufficient for the constant supplying of the homeland. Many technical difficulties are being encountered in their production. The Ministry of Industry has already taken steps to remove all obstacles, so that the domestic market might be supplied to the satisfaction of those who cannot obtain dioptic glass.

TWO-YEAR PLAN COMPLETIONS -- Rude Pravo, No 284, 5 Dec 48

The gramophone factories fulfilled their two-year plan on 10 November, when they had produced 5,724,143 gramophone discs. By the end of the year this number will have increased to 6 1/2 million, so that the enterprise will fulfill its two-year plan 115 percent.

The Caladna cotton-weaving mill of the Czech Cotton Mills state enterprise and the Vichova nad Jizerou weaving mill of the Pojizerske Cotton Mills state enterprise have also completed their two-year plan.

FOOD CONSUMPTION IN PRAQUE -- Rude Pravo, No 279, 30 Nov 48

The Central National Committee of the capital city of Prague cares for the daily supplying of food to the 926,000 residents of Prague. This tenth of the entire population of the republic consumes daily more than 51,000 kilograms of meat, 244,000 kilograms of flour and bread, almost 199,000 kilograms of potatoes,

and almost 269,000 liters of milk. Because a part of the residents of Prague and those who come to Prague to work are fed in factory and camp kitchens, 187 kilograms of meat, more than 5,000 kilograms of bread and flour, 15,700 kilograms of potatoes, and almost 4,500 liters of milk must be added to the above figures.

WEAVING MILL COMPLETES PLAN -- Rude Pravo, No 288, 10 Dec 48

Moravlen weaving mill No 14 fulfilled its two-year plan at the end of November. It was the first textile plant in Bruntal Okres to do so. It processed 294,100 kilograms of yarn. By the end of the year it will produce about 55,000 meters of fabric, so that the plan will be fulfilled 105 percent.

The spinning mill in Kerhartice has also announced fulfillment of its plan one month before the end of the two-year plan.
